PROJECT NUMBER:	82 TNG	SESSION NUMBER:	1
DATE OF SESSION:	880824	DATE OF REPORT:	880826
START:	1440	END:	1510
METHODOLOGY:	CRV	VIEWER IDENTIFIER:	32

1. (S/NF/SK) MISSION: Access and describe in a stage two sense training target # 113, Komodo Island, Indonesia.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 8351/1952.
3. (S/NF/SK) COMMENTS: Excellent session. 032 obtained all types of stage twos in structure. 032 is starting to get bored with stage 2, his performance and structure has been excellent so he should move on to stage 3 after one or two more sessions. He still needs some practice on subtle gestalts such as power, energy and motion, but work on these can continue as part of stage 3 training (many stage 3 sites have these elements). He also needs more work on developing a sense of when he has obtained all site gestalts in stage 1, this too can be accomplished during stage 3 training.
4. (S/NF/SK) EVALUATION: *13*

Gleam of gold on the hide of a newly hatched Komodo dims with maturity. "The 21½-inch baby weighed next to nothing," said the author. It coiled inside a shell the size of a goose egg.
